Students Have 'Laryngitis'

To: The Students of Franklin University

The monthly issue of the "Student Voice" newspaper has not been published since June, 1968. WHY? Because the bulk of yesterday's staff has been graduated from Franklin, leaving the responsibility of publishing the paper to the new students. As of now, the new students, with a "voice", have not come forward and expressed the interest in the paper. Since the "Student Voice" is a publication 'by the students' and 'for the students', it is impossible to run this operation without the help of the students.

The present lack of interest may be partially due to the fact that there has not been the opportunity or facilities for interested students to meet at the new un-campus. If this is the case, all students concerned with the future of Franklin University are cordially invited to a forum this coming Sunday to discuss the possibilities of continuing the publication of the "Student Voice".
